Thank you for your information, Peter.

In the attached file you can find the scan copies of the main tender documentation issued by the Hungarian Government including Announcement, Contract , Notification to Kazakhstan Government and Certificate dates as of 14.03.2006. All of these documents are public but we would like to pay your attention that providing you with it will has the only purpose - to shorter the time of its finding for Mr.Peter Szijarto and his stuff as you explicitly wrote it in your email.

As for the prime minister of Kazakhstan coming to Hungary 2-3rd July and Mr. Szijarto's intent to discuss the project with him – we are extremely against of it and don't think that it is a good idea. We have a lot of things to discuss internally, reach the right agreements with you and the Hungarian Government, develop and accept the plan of action and then to move forward towards the goal of the project. Highlighting the Hungarians interest at the current time and showing it to Kazakh's could be extremely premature, dangerous and destructive. All the steps have to be hardwired in a plan of actions and it should be the part of the agreements. So please stop it.

Waiting for your confirmation that during the meeting with the prime minister of Kazakhstan who, as you wrote, is coming to Hungary 2-3rd July neither Mr. Szijarto's nor his stuff/Hungarian officials will discuss the issue i.

Regards, Yakov

Subject: schedule

Dear Yakov

I would like to summerise the situation as follows:

We have had a meeting with Ehud, we met Mr. Peter Szijarto, secretary of state for foreign affairs in the office of the prime minister. He will be deputy minister for foreign affairs and foreign economical relations in June, and he will be the minister in September. He is one of the closest aids of the prime minister, carries out all orders to the letter and reports back like as accurately as a tape recorder. When you are dealing with him, you are dealing with the prime minister. Mr. Szijarto said, that at the next visit Ehud will meet the prime minister.

Mr. Szijarto was very interested in the deal we offered. He said that he will deal with it himself using the legal staff he has in the foreign ministry. He said I should corresponde directly with him, should send all papers to his personal e-mail.

It was agreed at the meeting, that we would send "all relevant documents" we have on the issue. This basically means the tender documentation issued by the hungarian government in

2006 and the contract we signed with the Hungarian government. They of course have these papers but it is easier for Szijarto to ask for them from us.

When they have received the papers from us, they will start to look for all the papers we have asked for, namely documents proving that there really was an investment, and identifying the investor. When these papers are found, their lawyers will sit with our lawyers and decide on how to proceed.

After the legal background has been cleared we can agree with Mr. Szijarto on which structure to choose, and how to divide in money we collect. When this has been agreed, we can sign the formal agreements with the government of Hungary.

As the prime minister of Kazakhstan is coming to Hungary 2-3rd July, and Mr. Szijarto wants to discuss this issue with him also, we have to hurry.

So please forward to me as soon as possible the tender documentation and contract as I mentioned above, so that I can forward it to Mr. Szijarto, and ask for a meeting for Ehud with the prime minister.

Looking forward to receiving the documents.

Yours, Peter Kira
